AMENDMENTS TO THE CLAIMS

This listing of the claims replaces all prior versions of claims in the application.

Claims 1-22 (Cancelled).

23. (Previously presented) A method for delivering to a user a shopping list of items for selection by the user at a shopping facility, comprising:

- (a) generating a list of desired items at a location remote from the shopping facility;
- (b) transmitting the list via an e-mail to a first computer;
- (c) storing the list in a user data file on the first computer;
- (d) retrieving the list at the shopping facility from the user data file using a kiosk which communicates with the first computer; and
- (e) delivering the list to the user at the shopping facility in a user perceptible format.

24. (Previously presented) The method of claim 23, wherein the first computer which is used to generate the list is a user computer located outside the shopping facility, and the list is communicated to the kiosk through an electronic communication means.

25. (Previously presented) The method of claim 23, wherein step (d) further comprises delivering a message to the user identifying items which are out of stock.

26. (Previously presented) The method of claim 25 further comprising the step of identifying alternative available products.

27. (Original) The method of claim 23 further comprising the step of delivering marketing messages to the user on the list delivered in the user perceptible format.
